

# P-A-914

Plastic adhesion additive

A brand of BASF –  
We create chemistry

|                      |  |
|----------------------|--|
| <b>Application:</b>  | ProClass - Plastic adhesion additive for ProClass undercoat materials: <ul style="list-style-type: none"><li>• P-U-30</li><li>• P-U-32</li><li>• P-U-43 /-49</li><li>• P-U-73 /-77 /-79</li></ul>                                      |
| <b>Key Features:</b> | Additive which makes fillers suitable for direct application to all paintable plastic substrates normally used in the automotive industry.   |
| <b>Remarks:</b>      | The addition of P-A-914 does not produce adhesion to unpaintable pure polypropylene (PP) and polyethylene (PE).<br>Mixing ratio / Application: As specified in the technical data sheet of the product in which P-A-914 is being used. |

---

Please note: For automotive refinish, repair instructions of vehicle manufacturers, in particular regarding installed sensor technology, must always be observed in addition to the processing instructions given within this document.

---
